OPEN DATA

Le débat reste ouvert...

Pour ouvrir les jeux de données que vous attendez, continuons d'échanger. Faites nous part de vos avis et de vos premiers retours d'expérience. Nous avancerons ensemble, dans le bon sens.

Toutes les données SNCF seront ici

Chaque activité du Groupe SNCF va vous faire partager ses données : Transilien (le réseau Ile-de-France), Gares & Connexions (les premières gares), TER (le train des régions). L'ouverture des données se fera progressivement, mais pas besoin de chercher ! Toutes seront rassemblées dans ce portail open data SNCF. Vous aurez tout sous la main.

Prêts à créer votre business ?

Chaque activité de SNCF a ses enjeux et sa démarche open data. Lisez les, suivez

Rail Industry Data

Train companies create various types of data associated with the provision of their rail services, including fares, timetable and routeing data. They use this data to provide rail travel information to their customers in a variety of ways, including through approved websites, via mobile phone apps and at their stations through accredited ticket issuing systems.

Rail Settlement Plan (RSP) is authorised to make this data available under licence to third parties on behalf of the train companies, in order to promote rail travel and encourage the wider distribution of accurate and consistent rail travel information on an impartial basis.

On the pages contained in this area of our website, you can sign up to access timetable data free of charge, providing you accept the associated terms and conditions, which are designed to protect the integrity of the data and ensure that it is used accurately.

If you are interested in accessing fares and routeing data, you can find details of how to do this and the associated conditions and costs by going to www.atoc.org/about-atoc/rail-settlement-plan/data-feeds

Här hittar du APIerna

Här presenteras de APIer du kan få tillgång till om du har registrerat dig på Trafiklab.se. Längre ner på sidan hittar du även information om andra APIer som du inte behöver någon API-nyckel till eller där du ansöker om en nyckel på ett annat sätt.

TRAFIKLABS API-ER

ResRobot - Sök resa

Samtrafiken, 9 maj 2011

Med detta API kan du reseplanera med hela Sveriges kollektivtrafik. APIet bygger på ResRobot som du hittar på resrobot.se. Reseplaneraren ResRobot är den mest kompletta Internetbaserade tjänsten för planering av resor inom Sverige. Här finns på ett och samma ställe tidtabeller för alla tåg, bussar, flyg, tunnelbanor och spårvagnar i landet samt vägbeskrivningar för bil.

SL Realtidsinformation

Storstockholms Lokaltrafik, 9 aug 2011

Realtidsinformation gällande buss, tunnelbana, pendeltåg och lokalbana.

TRANSPORT . OPENDATA . CH

Transport

Swiss public transport API

Introduction

The Transport API allows interested developers to build their own applications using public timetable data, whether they're on the web, the desktop or mobile devices. Find out more about how you can start exploring the timetable data playground or just browse the API Documentation.

The source code can be found on [GitHub](#), please ask any technical questions there. If you need a direct contact write a mail to transport@opendata.ch.

Examples

A few examples to show what can be produced with the Transport API:

- [Stationboard table with autocompletion](#)

API Documentation

- [Resources](#)
 - [/locations](#)
 - [/connections](#)
 - [/stationboard](#)
- [Objects](#)

Example Requests

```
GET http://transport.opendata.ch/v1/connections?from=Lausanne&to=Genève
```

which is the same as

```
GET http://transport.opendata.ch/v1/connections?from=008501120&to=008501008
```

Example response

```
{
  "connections" : [
    {
      "from" : {
        "arrival" : null,
        "departure" : "2012-03-31T08:58:00+02:00",
        "platform" : "7",
        "prognosis" : {
          "platform" : null,
          "arrival" : null
          "departure" : null
          "capacity1st" : "-1",
          "capacity2nd" : "-1",
        },
        "station" : {
          "coordinate" : {
            "type" : "WGS84",
            "x" : "6629086",
            "y" : "46516785"
          },
          "id" : "008501120",
          "name" : "Lausanne",
          "score" : null
        }
      },
      "to" : {
        "arrival" : "2012-03-31T09:46:00+02:00",
```
